The Next Generation Recycled Leather

USES

Handbags, wallets, footwear, belts, and furniture. Future potential includes wider adoption in fashion, lifestyle, and industrial applications, offering scalable, eco-friendly leather alternatives globally.

RECYCLED LEATHER

Made from natural leather fibers blended
with polyester using an advanced
spunlacing or needling process

100% free from harmful chemicals and adhesives for a
clean, eco-responsible construction

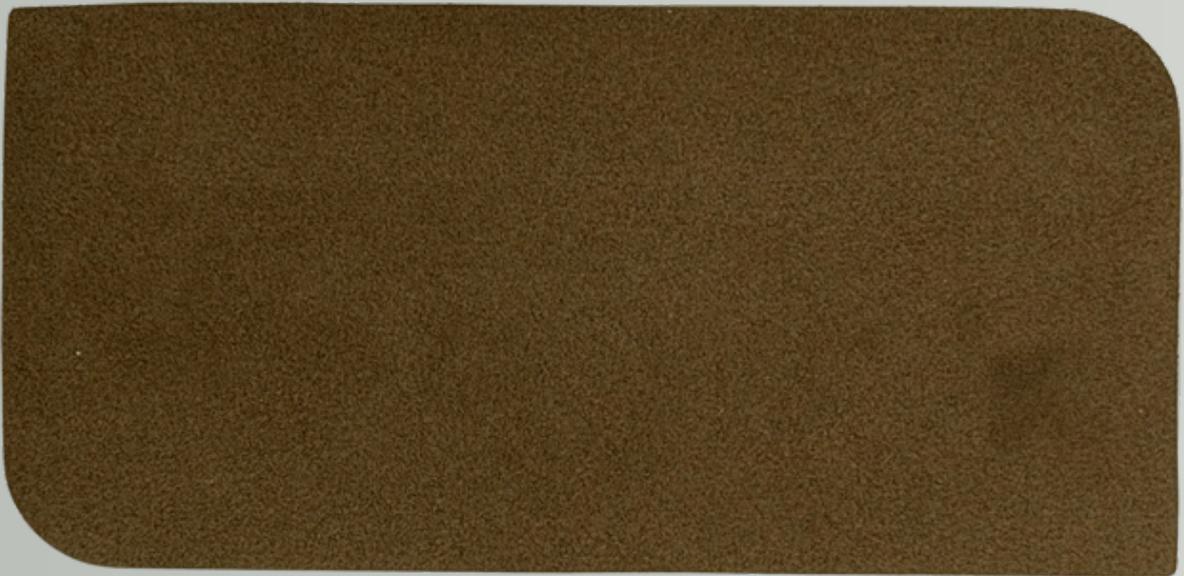

Offers a premium leather-like look and touch,
ready for dyeing and topcoat finishing
